

LET'S CREATE OUR FIRST WEB PAGE!!!

OBJECTIVES:

- Develop a basic web page using a text editor
- Save a web page properly
- Open the web page in a browser
- Open the web page for editing
- Develop a website using the following tags, understanding their purpose:
 - HTML
 - HEAD
 - BODY
 - TITLE

INSTRUCTIONS:

1. Open Notepad.
2. Type in the following text: (DISPLAY ON SCREEN FOR STUDENTS TO COPY)

```
<HTML>
<HEAD>
<TITLE>This is my first web page! </TITLE>
</HEAD>
<BODY>
<H1>Welcome to my website!
<P>Hi! My name is .... Welcome to my first website. </P>
</BODY>
</HTML>
```

3. Save as index.html.
4. Display in a web browser.

5. Open the notepad file to edit.
